

Set up a Bluehost account and create domain:

1. Go to the Bluehost website:

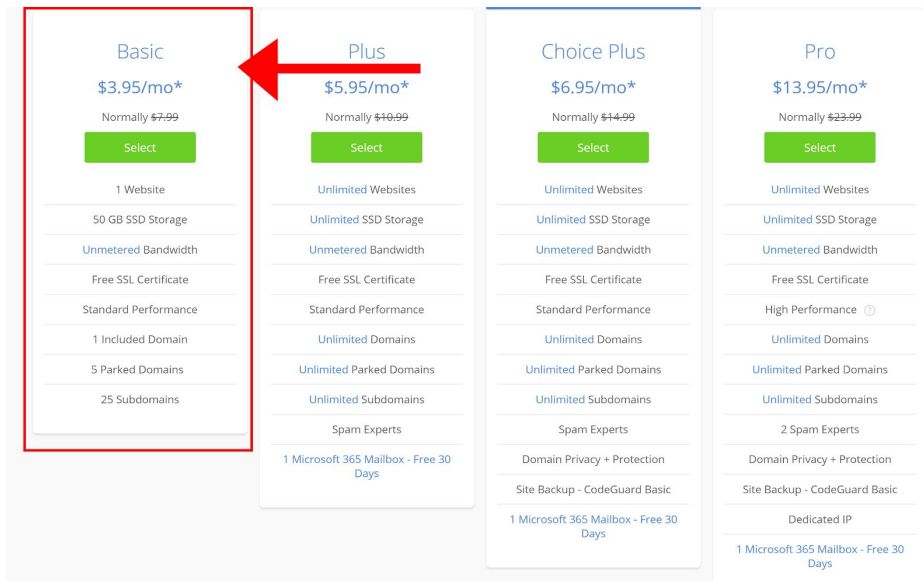

<http://go.fullstaqmarketer.com/bluehost>

- Click on the green “Get Started” button

2. On the next page you will select a hosting plan:

- Click the green “Select” button for the **BASIC plan**

3. On the next page you will create a domain:

NOTE: The first domain with Bluehost will be **FREE**.

Next we'll set up your domain.

Your domain will be your website's address.
You can create a new domain, use one you already own, or make one later.

The screenshot shows two side-by-side panels. The left panel is titled 'Create a new domain' and contains a text input field, a dropdown menu set to '.com', the text 'Search available domains', and a blue 'Next' button. The right panel is titled 'Use a domain you own' and contains a text input field, the text 'Enter your existing domain name', and a blue 'Next' button. A red box highlights the 'Create a new domain' panel, and a red arrow points from the 'Use a domain you own' panel to the 'Create a new domain' panel.

- Simply type in a word (or words) of your choice
Some examples: theunstoppable, goingbeyond, digitalhero, freelancelife ...etc.

The screenshot shows the 'Create a new domain' panel. The text input field is highlighted with a red box, and a red arrow points to it with the text 'Create a name here'. The dropdown menu is set to '.com'. Below the input field is the text 'Search available domains' and a blue 'Next' button.

TIP: Just have fun with it! Don't get caught up in trying to choose the perfect name. It's not going to be perfect. An average domain name is better than no domain name.

IF YOU CAN'T THINK UP A NAME JUST USE YOUR OWN.

example: jasonodell

b. Next, leave the domain extension as **.com**

Create a new domain

.com ▼

Search available domains

Next

Leave as .com

c. Click the blue “next” button.

4. Fill out the account, package and payment information.

a. On the next page fill out the account info section. A business name is optional so you can leave it blank.

Account Information

All fields are required unless otherwise noted.

Total	\$71.40	
	Add tax exemption	

- d. Fill out payment information.

Payment Information

Pay by credit card, or see more payment options

Credit Card Number	
	
Signature/CVV2 Code	
Expiration Date	03 / 24

- e. Check off that you agree to Bluehost's legal terms and then click on the green "submit" button.

Make sure this is checked.

You may cancel at any time by logging into your account online or by calling customer support at +1-855-684-4546. Do Not Sell My Info

☒ I have read and agree to Bluehost's [Terms of Service](#) and [Cancellation Policy](#) and acknowledge receipt of the [Privacy Policy](#).

submit

Then click submit.

- f. On the next page just click the blue "Create your account" button.

Success! Next, let's create your account.

It just takes a few seconds. All you have to do is pick a username and password so you can log in to Bluehost.

Create your account

- g. On the next page create a password. Then click the “Create Account” button.

- h. You will then be taken to the login page. This will log you in for the first time.

The image shows a login page with a light blue background and a white central card. At the top of the card, there are two radio buttons: "Hosting Login" (selected) and "Webmail Login". Below this is the heading "Log in to your account". There are two input fields: "Email or Domain Name" and "Password". A blue "Log In" button is positioned below the password field. At the bottom of the card, there are two links: "Forgot Password" and "Create Account". At the very bottom of the page, there is a footer area with the text "Are you a part of our Maestro Beta? Log in here." and a button labeled "Log in as Maestro".

Step 2 plugins:

Step 2 of 4

What would you like to add to your site?

Blog

Privacy policy

About me

Reach more customers and share your ideas.

Use this page to tell people who you are.

Continue

Skip this step

Tell us a little more about your site.

Answer a few questions to get your site set up. You can always change this later.

What do you want your site to be about?

e.g. Boston Red Sox's Adventures, Google

This will appear at the top of your site.

What is your site's name?

e.g. Boston Red Sox's Adventures

This displays on the website's meta data.

Are you comfortable creating websites?

A little ☐ ☐ ☐ ☐ Very

WP

« < 1 2 ... 703 > »

[Skip this step](#)

Step 4 choose a theme:

- j. Once you skip those 4 steps you will finally be taken to your Bluehost dashboard! BUT we're not done yet.

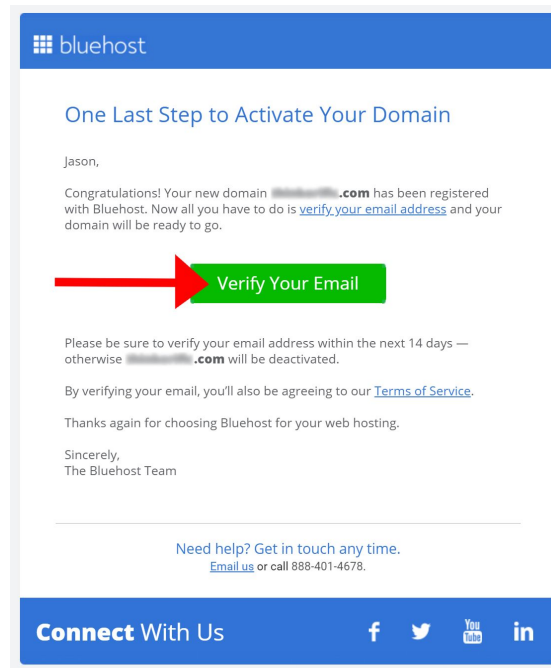

5. Verify email address and confirm account with Bluehost.

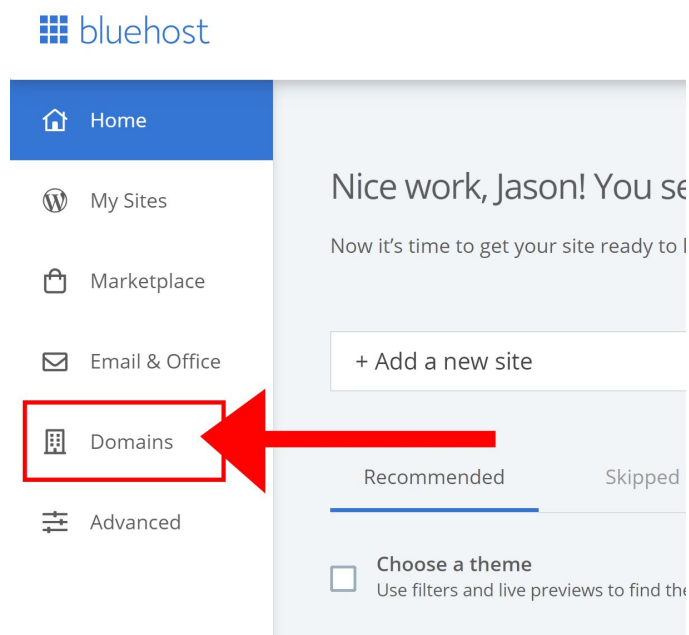

- a. Once your account has been created and set up, Bluehost will email you to confirm your account, and activate your domain with them. Go to your inbox and find that email with the subject line, "WHOIS Verification for yourdomain.com. Action Required." and then click to open.

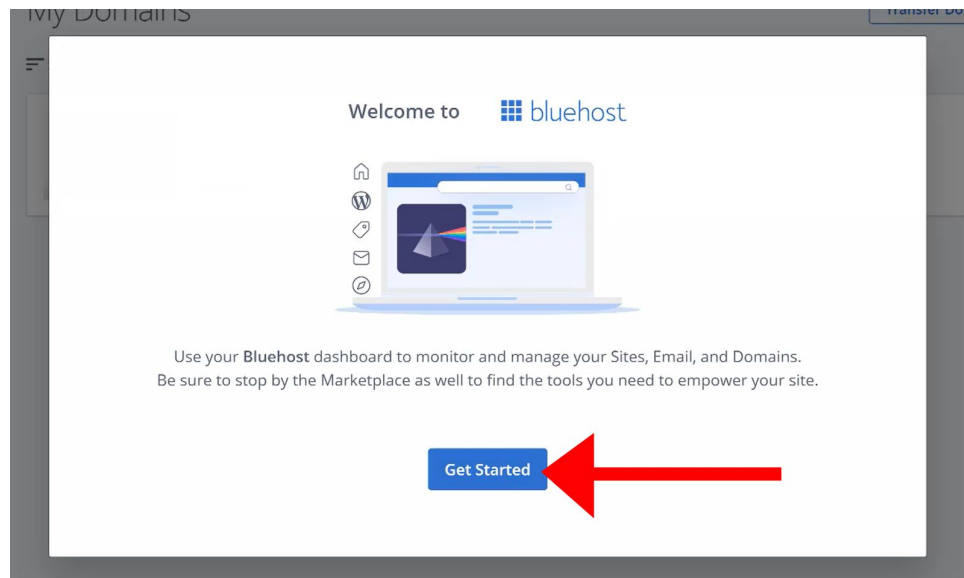

- b. Open up the email and click the green “Verify Your Email” button.

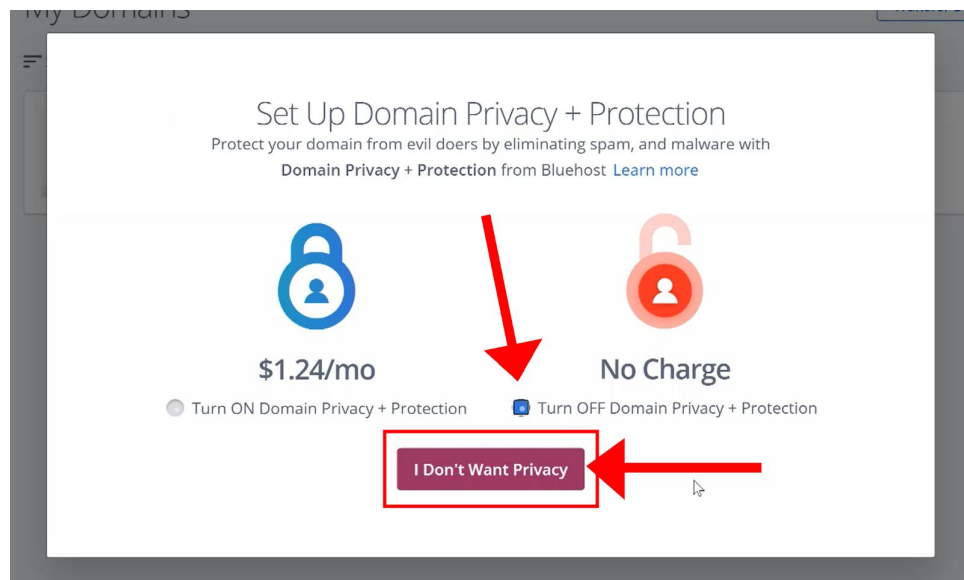

- c. After confirming, you will be taken back to your Bluehost dashboard. Then you will need to click on “Domains” at the left side.

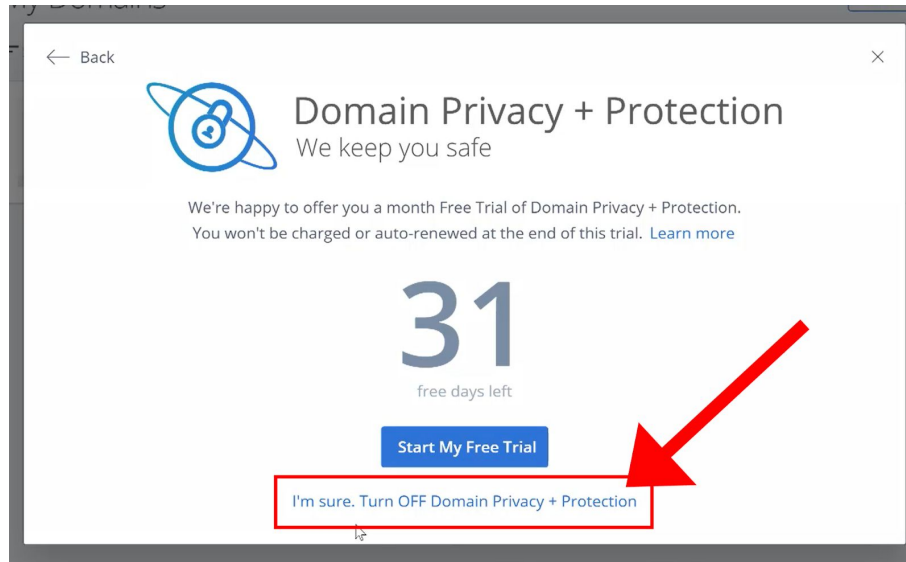

- d. On the Domains section a pop-up will appear. Click the blue “

- e. Then select No Charge and click the “I Don’t Want Privacy” button.

- f. Then click on the link “I’m sure. Turn OFF Domain Privacy + Protection.

NOTE: The reason we turn this off is because it can impact the reputation of the domain with the Internet Service providers (ISP's) like Gmail, Yahoo, Hotmail...etc and hurt deliverability with sending out emails to your list. Also, you might get calls from website developers asking to build a site for you - IGNORE THESE CALLS (they will last for a few days).

CONGRATS!!

ALL FINISHED. Your Bluehost and Domain are now good to go!
