

Integrate GetResponse with ClickFunnels:

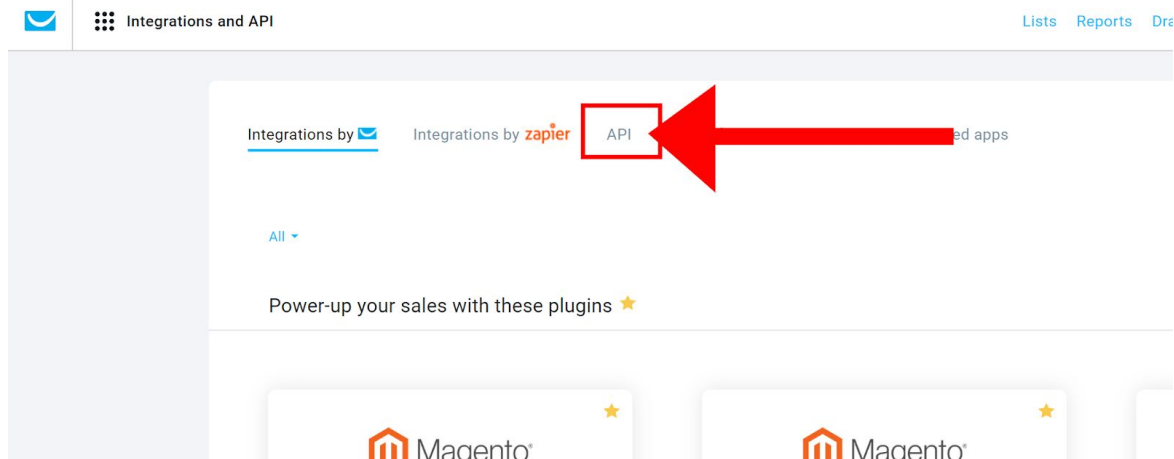

1. Create API in GetResponse.

Log into GetResponse: <https://app.getresponse.com/login>

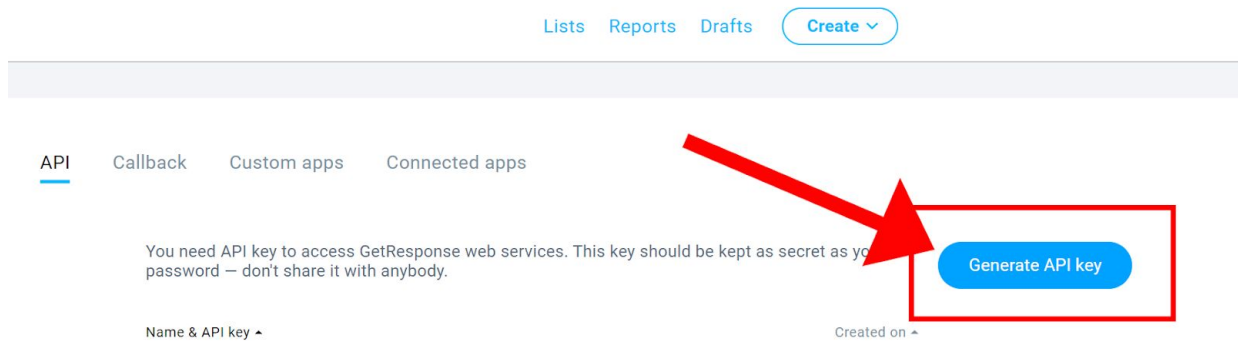

- a. From your GetResponse dashboard got to top left and click on Menu > Integrations and API.

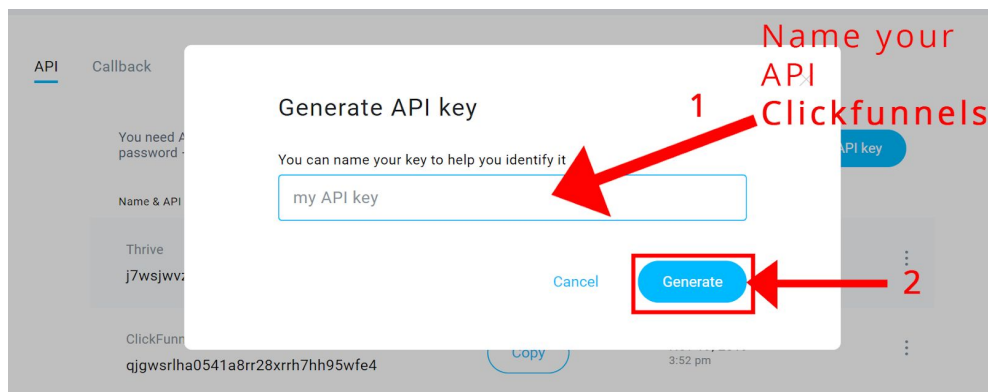

- b. Next click on the tab that says "API".

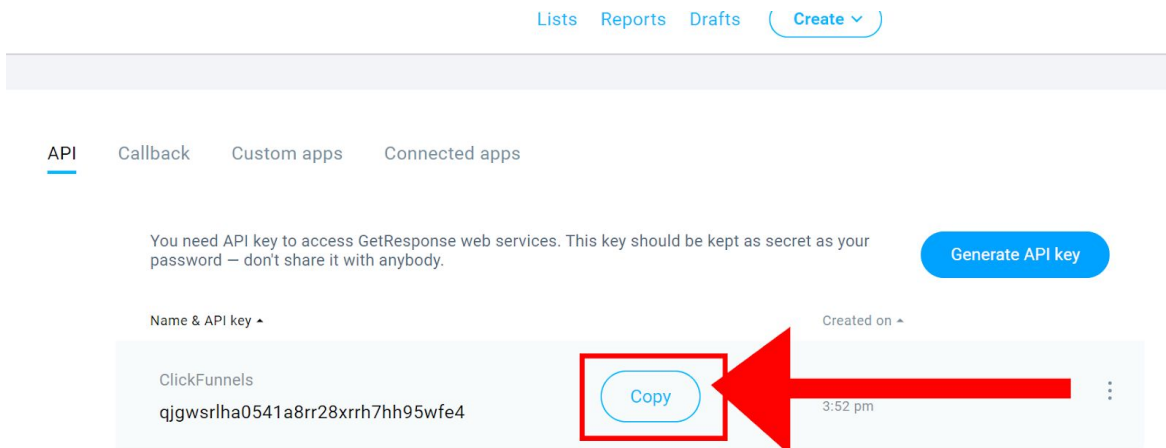

c. Then click the blue “Generate API key” button.

d. On the pop-up it will ask you to give your API a name. Just name it **ClickFunnels**. Then click the blue “Generate” button.

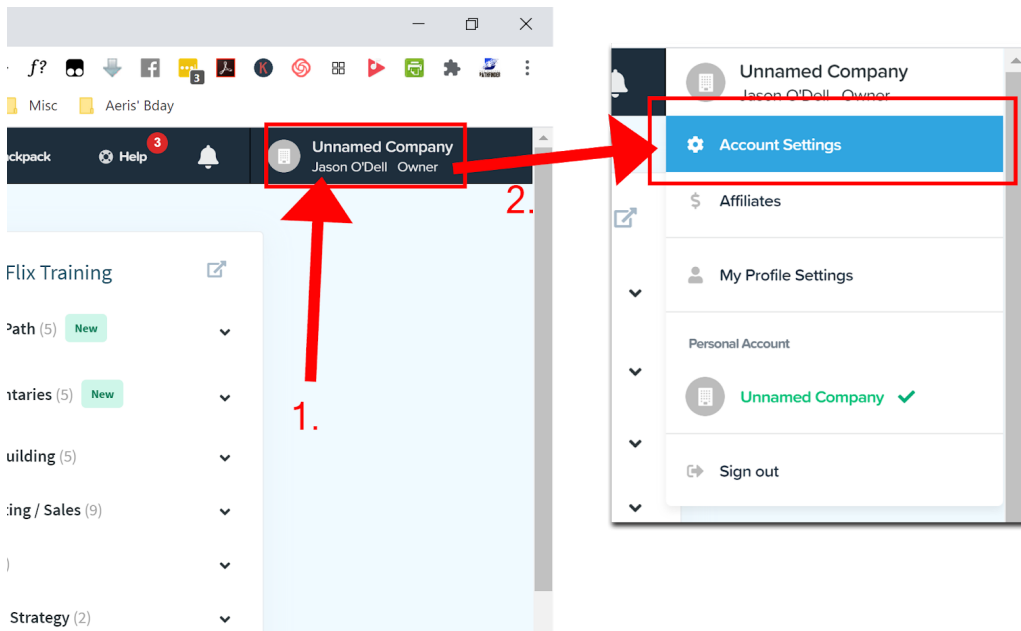

e. After generating the API key click on Copy.

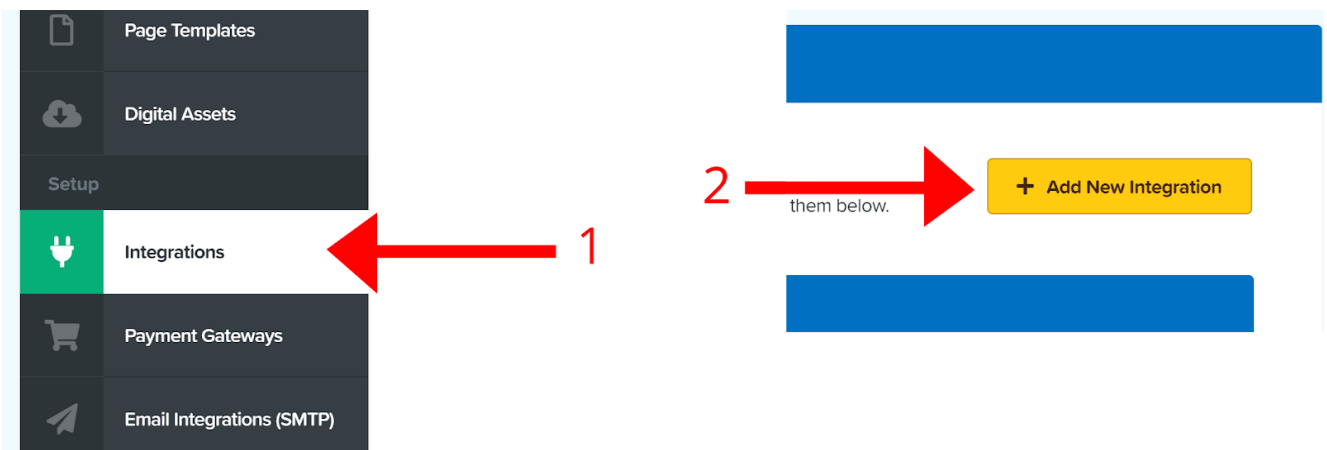

f. Log into Clickfunnels:

https://app.clickfunnels.com/users/sign_in

Go to the top right and click on Account Settings.

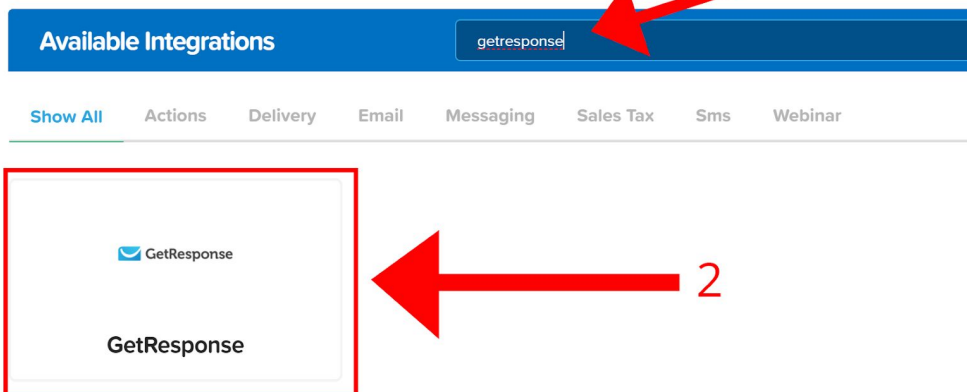

a. At the far left scroll down and select Integrations. Then click on the yellow “+ Add New Integration” button.

- b. You can use the search bar to quickly find the GetResponse integration. Click the button for GetResponse.

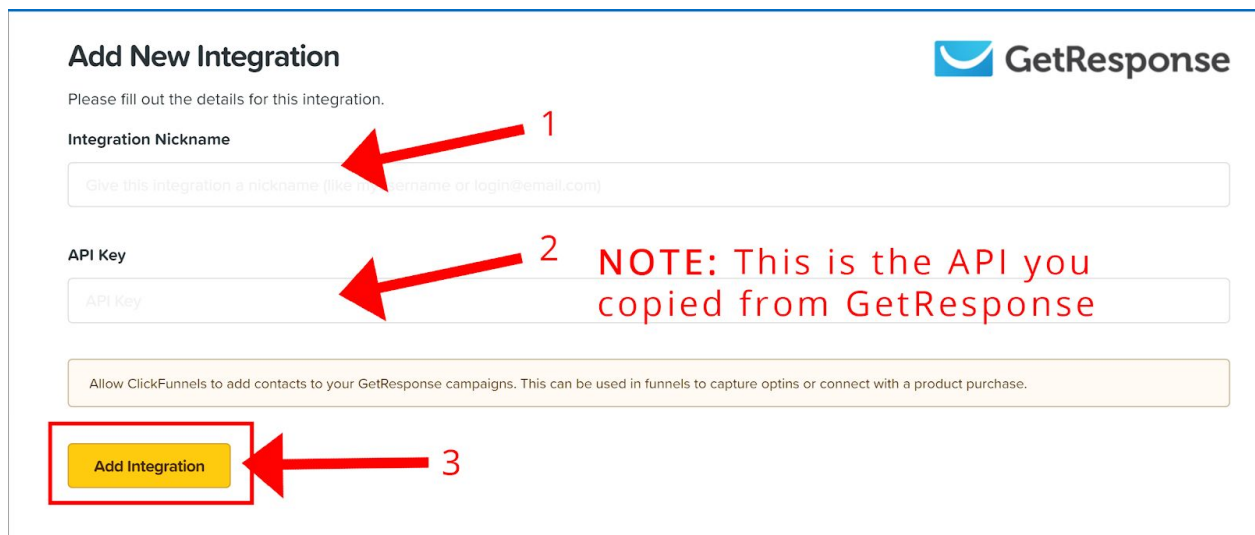

Add New Integration

Please select an integration from the list below to get started.

The screenshot shows the 'Available Integrations' section with a search bar containing 'getresponse'. A red arrow labeled '1' points to the search bar. Below the search bar, a list of integration categories is shown: 'Show All', 'Actions', 'Delivery', 'Email', 'Messaging', 'Sales Tax', 'Sms', and 'Webinar'. Under the 'Email' category, the 'GetResponse' integration is listed with its logo and name. A red arrow labeled '2' points to the 'GetResponse' integration entry.

- c. Give your GetResponse integration a Nickname (something like myusername or [login@email.com](#)... etc). Then paste the API key that you copied from your Getresponse account. Finally, click the yellow “Add Integration” button and then you’re done integrating Getresponse to Clickfunnels!

The screenshot shows the 'Add New Integration' form for GetResponse. The form has a title 'Add New Integration' and a subtitle 'Please fill out the details for this integration.' Below the subtitle, there are two input fields: 'Integration Nickname' and 'API Key'. A red arrow labeled '1' points to the 'Integration Nickname' field. A red arrow labeled '2' points to the 'API Key' field. A red note next to the 'API Key' field says 'NOTE: This is the API you copied from GetResponse'. Below the input fields, there is a checkbox labeled 'Allow ClickFunnels to add contacts to your GetResponse campaigns. This can be used in funnels to capture optins or connect with a product purchase.' At the bottom of the form, there is a yellow 'Add Integration' button. A red arrow labeled '3' points to the 'Add Integration' button.
