

QA Funnel Checklist

☐ Type your Optin page url (example: www.yourdomain.com) in a new tab in internet browser (**Note**: this is the same link you submitted earlier today)

☐ Once the Optin landing page loads:

☐ Move your cursor towards the top like you are leaving the page...does your pop-up window open?

- **Yes** - pop-up is good;
- **No** - (refer back to Breakout Session 4 - Part 2)

☐ Click the button on the pop-up - does it open the (FA72P) Fullstaq \$97 VSL - Email Traffic page?

- **Yes** - pop-up is good;
- **No** - (refer back to Breakout Session 4 - Part 2)

☐ Again type your Optin page url in a new internet browser tab to open it.

☐ Next enter your email into the box (to opt in) and click the blue 'Click to Confirm' button.

☐ If the funnel was set up correctly, the next screen that opens up should be your (FA72P) Fullstaq \$97 VSL - Email Traffic page. If the (FA72P) Fullstaq \$97 VSL - Email Traffic page doesn't open, refer to Breakout Session 4 - Part 2.

☐ Next log into Get Response. You should see your email in your BLC Optin List. If your email address is not showing in your list, refer to Breakout Session 4 - Part 2.
